YOUR PARTNER TO TAKE YOU FAR

The VECTIO range

Providing versatile service
for urban and intercity transport

VECTIO vehicles are available in two different floor heights to meet your mobility needs, both in urban and intercity settings.

With a capacity of up to 83 passengers and several different seating layouts, **VECTIO** combines a compact frame with excellent handling. Low-floor versions, available for vehicle classes 1 and 2 (i.e., both buses and coaches), ensure maximum accessibility with central double doors and wheelchair ramps. In addition, the version with a luggage hold provides significant versatility for both public and private sector transport operators.

Urban transport | Euro 6 Diesel

VECTIO C

Diesel Engine

The **VECTIO C**, with its diesel engine, is specifically designed to provide an urban transport experience that combines high performance with optimal comfort. The vehicle is available in two different lengths (9.26 m and 10.10 m), and has a capacity for up to 83 passengers in a spacious passenger compartment with ergonomic seating for maximum wellbeing.

Its increased accessibility, via a low floor, double doors at the centre and a manual ramp, make the **VECTIO C** an accessible vehicle for any passenger. Ideal for travel through city centres, this vehicle is not only a delight to drive, but also provides an enjoyable everyday passenger experience. With its narrow 2.30 m width, it effortlessly weaves through the narrow streets of the city centre, delivering seamless, effective travel.

Euro 6 Diesel

- **Midibus with optimised seating capacity**
- **Independent front suspension**
- **Low Entry chassis**

VECTIO C is a midibus designed to maximise comfort for seated passengers, while providing significant capacity for up to 78 passengers.

Thanks to its independent front suspension, its ABS system and its automatic transmission, the **VECTIO C** offers a smooth ride in urban settings, ensuring passengers are always safe and comfortable, even on the most challenging urban roads.

The **VECTIO C** meets the needs of people with reduced mobility, facilitating travel for all and ensuring all passengers have a positive experience through greater accessibility, thanks to its low entry chassis.

Intercity transport and school routes | Euro 6 Diesel

VECTIO U

Diesel Engine

The **VECTIO U** is a highly versatile vehicle that is suited to a wide range of use cases, from intercity lines to shuttle buses. With capacity for 39 passengers, this vehicle is ideal for group travel. It also comes with a spacious 3.5 m³ luggage hold for use by passengers taking their belongings with them.

Its optimised interior offers several seating configurations, and makes it possible to adapt the space to suit each journey. Alongside this, an additional centre door makes it easier to install a wheelchair lift, ensuring accessibility for all passengers.

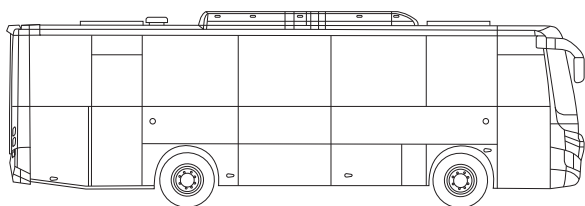

Euro 6 Diesel

- The compact intercity Midi coach
- Suitable for a variety of uses
- Available in a school version
- Comfortable for regular bus services
- Versatile
- Independent front suspension

Designed with the driver's comfort in mind **VECTIO U** has independent front suspension, resulting in a smooth ride with good handling. Its automatic gearbox provides an excellent driving experience. Finally, a school version of the **VECTIO U** is available, meeting schoolchildren's specific transport needs.

Intercity and suburban transport routes | Euro 6 Diesel

VECTIO U LE

Diesel Engine

The **VECTIO U LE** is a compact vehicle designed to be both versatile and accessible. It provides several different seating layouts and can be easily adapted to suit a range of uses, from suburban lines to intercity routes.

Its low-floor design, along with its central double doors and manual ramp, supports accessibility for all passengers, including those with reduced mobility. Its spacious, stylish interior creates a positive atmosphere, while its independent front suspension and automatic transmission ensure smooth handling.

Euro 6 Diesel

- **Low Entry chassis**
- **Wheelchair accessible**

The **VECTIO U LE** strengthens your operational flexibility while providing a comfortable, universally accessible transport experience, making it an excellent addition to your fleet.

VECTIO C

Safe and enjoyable urban travel for all.

The **VECTIO C** stands out from the crowd with its spacious and easily accessible interior, thanks to its low floor. Making every city journey safe and enjoyable for everyone. Its independent front suspension, combined with the ABS and automatic transmission, ensures a smooth and pleasant experience for the driver while also guaranteeing passenger safety. With its spacious interior, the **VECTIO C** facilitates accessibility via its wide central double doors, its manual or electric ramp and its kneeling system.

VECTIO U

The **VECTIO U** offers unmatched driver comfort, thanks to its independent front suspension and ergonomic driver's area. Its next generation drive chain (EURO 6) makes it a high-performance vehicle while also reducing emissions to a minimum.

The additional central door allows a lifting platform to be installed, making it easier for wheelchair users to access the bus. Inside, passengers will find a spacious and bright compartment. The capacity of the **VECTIO U** may be adjusted depending on the seating layout, and large luggage holds that can transport up to 3.5 m³ are also available on the 9.30 m-long vehicle.
